

Palace Resorts Sustainability Policy

Palace Resorts is a tourism company, aware of the present and future environmental impacts generated by the operation of its facilities. For such reason the following actions are carried out:

Declaration

The Environmental Policy of Palace Resorts is based on compliance with applicable environmental laws, having as a fundamental purpose the balance between the development of the business center and the ecological capital.

As a company, it is committed to creating jobs in those areas where it is established and giving preference to the acquisition of local goods.

Actions are taken to reduce energy consumption through permanent programs for the efficient use of water, energy saving and waste recycling.

Actions are taken to protect flora and fauna.

The community is supported through the Palace Resorts Foundation I.A.P.

The environmental policy is disseminated to all employees, suppliers, community, and guests.
